Forecast for Friday 20 Aug 2021

Weather: A few light showers in the early hours. The morning will be cloudy with low cloud across Argyll and the Trossachs breaking somewhat from the south. Outbreaks of rain will reach Arran and southern Kintyre in the early afternoon and extend to the rest of the region through the afternoon, lingering into the evening.

Chance of cloud free mountain/hill tops above 800m: 50%

Visibility: Poor in low cloud down to 700 metres across Argyll and the Trossachs in the morning, this slowly breaking up by early afternoon. Otherwise cloud mostly confined to 900 metres above before widespread low cloud develops down to 500 metres once rain arrives in the afternoon

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View
Best of the cloud free summits is likely to be around Fort William, breaks elsewhere rather short lived.

Forecast for Saturday 21 Aug 2021
Weather: Low confidence for detail. Expected to be cloudy with rain at times, occasionally heavy. Some drier spells of weather mixed in too.

Maximum wind: Southeasterly 20 mph

Chance of cloud free mountain/hill tops above 800m: 20%

Visibility: Poor in widespread low cloud down to 400 to 700 metres which is likely to linger throughout the day.

Temperature: **Glens:** Plus 12 rising to 17 Celsius
At 800m: Plus 12 Celsius
Freezing level: Above summits
